

SHUBHANSHU NAVADIYA

AI/ML Engineer | Generative AI | RAG | Agentic AI

Bengaluru, India | +91 9031132507 | subhnavadiya@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

AI/ML Engineer with hands-on experience building production-oriented Generative AI, RAG, agentic, multimodal, and conversational AI systems. Developed 20+ AI POCs spanning LLM agents, document intelligence, OCR/VLMs, semantic retrieval, and workflow automation.

TECHNICAL SKILLS

Programming & Data: Python, SQL, MySQL, SQLite, Pandas, NumPy

GenAI & Agents: OpenAI API, Gemini API, LangChain, LlamaIndex, CrewAI, Microsoft AutoGen, Ollama, vLLM

RAG & Document AI: LlamaParse, Qdrant, Weaviate, Embeddings, Semantic Search, OCR, Metadata Extraction

ML & NLP: Scikit-learn, PyTorch, Hugging Face Transformers, LightGBM, XGBoost, DistilBERT, RoBERTa, TF-IDF

Backend & AI Tools: FastAPI, REST APIs, GitHub Actions, Git, LiveKit, Cartesia, Playwright, Gradio, Streamlit

EXPERIENCE

Artificial Intelligence Intern — F22 Labs | Jun 2025 – Oct 2025

- Built an end-to-end **RAG pipeline** for insurance policy documents using LlamaParse, Qdrant/Weaviate, LangChain, and LlamaIndex for semantic retrieval, metadata extraction, and LLM-based reasoning.
- Developed **20+ AI POCs** across OCR, Vision-Language Models, document understanding, structured extraction, and multimodal processing using GPT-4o Vision and Qwen2.5-VL.
- Engineered **AI-powered browser automation** using Playwright and GPT-4o Vision for visual challenge processing, multi-step form workflows, iframe navigation, data extraction, and Slack integration.
- Developed and deployed a **real-time AI interview agent** using LiveKit, Cartesia, GPT-4o, and STT/TTS pipelines to conduct 20-question automated voice interviews.

Artificial Intelligence Intern — Infosys Springboard | Nov 2024 – Jan 2025

- Built NLP classification pipelines using DistilBERT, RoBERTa, GRU, LSTM, and Bi-LSTM, achieving **97% classification accuracy** on news classification.
- Evaluated Naive Bayes and Random Forest baselines through EDA, testing, and model comparison.

Machine Learning Intern — Edunet Foundation (AICTE & Shell) | Nov 2024 – Dec 2024

- Developed an end-to-end diabetes prediction pipeline covering preprocessing, model selection, hyperparameter tuning, and evaluation, achieving **89% accuracy** and **0.91 ROC-AUC**.

PROJECTS

Automated Stock News AI Agent | Python, Gemini API, SQLite, GitHub Actions | Jul 2026

- Built an AI news agent aggregating **7 financial RSS feeds**, filtering updates within **30-minute windows**, and using **Gemini API** to generate concise stock-market summaries.
- Implemented **>90% similarity filtering**, SHA-256/SQLite deduplication, and Telegram delivery; automated execution **every 5 minutes** using **GitHub Actions** at zero hosting cost.

Meta Ads Optimization Engine | Python, Pandas, FastAPI, SQLite | Jun 2026

- Built an optimization engine analyzing **10,000+ simulated Meta campaigns** across ROAS, budget utilization, ad fatigue, and creative performance to generate scale, pause, and budget-adjustment recommendations.
- Developed a **FastAPI + SQLite dashboard** with REST APIs, recommendation tracking, and automated **Slack/email performance alerts**.

Automated Financial Expense Classification | Scikit-learn, LightGBM, XGBoost, TF-IDF | Apr–May 2026

- Built an ML pipeline classifying **4,894 financial transactions across 103 accounting categories**, engineering **10,000+ text and numerical features** using TF-IDF and target encoding.
- Evaluated **8 ML models** and developed a weighted LightGBM/XGBoost ensemble, improving classification accuracy from **26.17% to 89.71%**.

EDUCATION

B.Tech in Information Technology — Anna University | 2021–2025 | CGPA: 8.1/10

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Building Multi-Agent AI Systems — Saras AI Institute | Cloud Computing — Oracle | Principles of Generative AI — Infosys Springboard

Achievements: Received a government-funded project grant of ₹10,000+ for AI research and implementation; received Best Paper Award at an IEEE conference.
