PROFESSIONAL SUMMARY

Final-year B.Tech (IT) student with hands-on Data Analytics experience — cleaned and analyzed 2M+ customer records, driving a 15% lift in campaign conversions. Published AI research on a novel job-shop scheduling algorithm at an international conference. Skilled in Python, SQL, Power BI, and React.js, with a strong record of turning data and code into measurable business outcomes.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL

Data & Analytics: Data Cleaning, Data Visualization, Statistical Analysis, Pandas, NumPy, Power BI, Tableau (basics), MySQL

Web Technologies: React.js, HTML5, CSS3, JavaScript, REST APIs

Tools & Platforms: Git, VS Code, IntelliJ, Jupyter, Canva, AWS (Cloud Operations)

Soft Skills: Leadership, Team Collaboration, Client Management, Agile Collaboration

EXPERIENCE

Dirghayu Bharat Services

May 2025 – June 2025

Role — Data Analyst

Patna, Bihar

- Spearheaded data cleansing and analysis of customer purchase history (2M+ records) using Python and SQL, providing actionable insights to optimize marketing campaign targeting — lifted conversion rates by 15%.
- Revamped the data reporting process by automating data aggregation and visualization in Power BI, enabling stakeholders to access real-time insights and make data-driven decisions — improving reporting efficiency by 20%.

PROJECTS

Job Shop Scheduling Using SGO | Python, Machine Learning

2025

- Developed a novel population-based meta-heuristic algorithm (SGO), inspired by human social behavior, to solve NP-hard Job Shop Scheduling problems.
- Outperformed traditional AI methods (GA, PSO, ACO) by improving solution quality and reducing makespan by up to 15% in simulated industrial scenarios.
- Presented research on AI-driven optimization at the 7th Malaysian Conference on Artificial Intelligence, representing India and KIIT on an international academic stage.

AskEditor | React.js, HTML5, CSS3, JavaScript

2025

- Built AskEditor, a responsive web application using React.js, HTML5, CSS3, and JavaScript, delivering a smooth and interactive UI backed by REST API integration.
- Improved page load performance by 35–40% through component reusability, code-splitting, and optimized rendering.
- Implemented a 100% responsive design, ensuring a consistent user experience across desktop, tablet, and mobile devices.

EDUCATION

Kalinga Institute of Industrial Technology

2022 – 2026

B.Tech — Information Technology | Bhubaneswar, Odisha

Nayabasat Parbatimoyee Siksha Niketan

2022

AISSCE | Kharagpur, West Bengal

CERTIFICATIONS

- [AWS Cloud Operations](#)
- [Project Initiation](#)
- [Corporate Governance](#)

EXTRACURRICULAR

Kzarshion Society

- Managed 15+ events, including large-scale college fests with 1 lakh+ participants, demonstrating strong leadership, coordination, and cross-team responsibility.
