EDUCATION

- **Graphic Era Hill University** Dehradun, India
Bachelor of Technology - Computer Science and Engineering October 2021 - July 2025
Coursework: Data Structures and Algorithms, Object Oriented Programming, Operating System, Database Management System, Computer Networking, Software Engineering
- **Radiant Public School** Dehradun, India
Central Board of Secondary Education(CBSE) Intermediate July 2021

EXPERIENCE

- **SmartInternz** Certificate
Google Cloud Generative AI Virtual Internship (Remote) (Sep 2024 - Oct 2024)
 - Completed a virtual internship focused on Google Cloud Platform (GCP) and Generative AI fundamentals.
 - Worked with Google Cloud services including Compute Engine, Cloud Storage, and Vertex AI through guided hands-on labs.
 - Explored cloud-based AI workflows and the practical application of Generative AI using Google Cloud tools

PROJECTS

- **SmartATS:** Developed an AI-powered resume screening application using **Python** and **Streamlit**. Integrated advanced Large Language Models to analyze resumes against job descriptions, calculating precise matching scores and generating actionable feedback. This tool streamlines the recruitment pipeline, significantly reducing manual review time for HR professionals.
- **AI-Driven Question Paper Generator:** Developed an automated Question Paper Generator using **Python** and **Streamlit** that converts uploaded PDFs into formatted academic assessments. Integrated the **Groq API** to dynamically generate custom questions based on user-defined constraints like difficulty and question types, instantly exporting the final exam as a print-ready Word document.
- **Quick-Text App:** Built a text summarization web application and REST API using **Streamlit** and **Flask**. Engineered a dual-model NLP pipeline featuring extractive summarization via LexRank (**Sumy**) and abstractive summarization using the BART transformer model. Successfully managed version control and deployed the application to **Render**.
- **Chatbot Using Google Gemini API:** Designed and implemented a chatbot using **Google's Gemini API** to handle natural language queries effectively. Built a responsive web application with **Streamlit**, enabling real-time conversational interactions. Worked on **API integration**, user interface design, and deployment for a seamless user experience.

SKILLS

- **Languages:** Python, C++, C
- **Technologies:** HTML, CSS, Flask, RESTful APIs, SQL, MySQL
- **AI/ML:** Machine Learning, Large Language Models (LLMs), Generative AI, NLP, Streamlit, NumPy, Pandas, Scikit-learn
- **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Google Cloud Platform, Google Colab, MS Office
- **Soft Skills:** Problem Solving, Communication, Teamwork

CERTIFICATIONS

- **JPMorgan Chase and Co.** Software Engineering Job Simulation on **Forage**.
- Develop GenAI Apps with Gemini and Streamlit Badge by **Google Cloud Skill Boost**.
- Generative AI Fundamentals Badge by **Google Cloud Skill Boost**.
- Prompt Design in Vertex AI Badge by **Google Cloud Skill Boost**.
- Machine Learning with Python by **IBM**.
- Crash Course on Python by **Google**.

ACHIEVEMENTS

- Solved **400+** Data Structures and Algorithms problems on platforms like LeetCode and GeeksforGeeks. *Profile*
