SUMMARY

Java Backend Developer with hands-on experience in Java, Spring Boot, Apache Camel, SQL, Redis, and backend development. Currently working on banking applications during an internship, focusing on backend development and system integrations. Skilled in building full-stack and microservice-based applications with knowledge of REST APIs, database management, and problem-solving.

EDUCATION

KLE's KLE College of Engineering and Technology (VTU)

Aug 2021 – Jun 2025

Bachelor of Engineering (B.E.) in Electronics and Communication Engineering

SKILLS

Programming Languages: Java, Java 8

Frameworks & Technologies: Spring Boot, Spring MVC, Spring Data JPA, Apache Camel, Microservices, REST APIs, ActiveMQ, Hibernate, HTML, CSS

Databases: SQL, MySQL, PostgreSQL, Redis

Tools: Docker, Git, GitHub, Maven, IntelliJ IDEA, Eclipse, VS Code, Postman

EXPERIENCE

Java Intern

Present

Extio Technologies and Consulting LLP

- Working on banking applications using Java, Spring Boot, Apache Camel, ActiveMQ, and PostgreSQL for backend development and system integrations.

Java Full Stack Development Trainee

Feb 2025 – Jul 2025

KodNest Technologies, Bengaluru

- Developed web applications using Java, Spring Boot, MySQL, HTML, CSS, and JavaScript.
- Built projects including Learn Sphere with Razorpay integration for secure online payments.

PROJECTS

Learn Sphere – Online Learning Platform

Mar 2025 – Jul 2025

- Built an online learning platform using Java, Spring Boot, MySQL, Razorpay, HTML, CSS, and JavaScript.
- Implemented secure authentication, payment integration, and optimized API performance.

Country Info Aggregator

Apr 2025 – May 2025

- Developed a Spring Boot application integrating REST and SOAP APIs to provide unified country details.
- Implemented Completable Future, caching, and graceful failure handling for improved performance and reliability.

Currency Exchange Integration Service

Apr 2025 – May 2025

- Developed a Spring Boot-based currency exchange microservice using WebClient for real-time exchange rates and conversion.
- Implemented Resilience4j retry and circuit breaker patterns with Redis caching, Actuator monitoring, and WireMock testing.

SOFT SKILLS

Adaptability to New Technologies, Problem Solving, Teamwork, Strong Communication Skills

CERTIFICATIONS

- Java Course Completion Certificate (2024, Udemy)
- Web Development Certification (2025, KodNest Technologies)
