

NIDHI KM

Java Full Stack Developer | Fresher

| nidhikmgowda24@gmail.com | [linkedin.com/in/nidhi-km11](https://www.linkedin.com/in/nidhi-km11) | github.com/Nidhi-km | <https://nidhi-km.github.io/Portfolio/> |

Professional Summary

Java Full Stack Developer with hands-on training in Spring Boot, React.js, MySQL, JWT Authentication, and Spring Security, gained through intensive training at Pentagon Space. Strong understanding of MVC architecture, REST API design, and SOLID principles. Built production-style projects including a full-stack E-Commerce Platform with role-based access control and secure REST APIs. Electronics and Communication Engineering graduate with a solid foundation in OOP, DBMS, OS, and Computer Networks.

Technical Skills

- **Languages:** Java, Python.
- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, React Hooks, Axios
- **Backend:** Spring Boot, Spring MVC, Spring Core (IoC, DI), Spring Data JPA, Hibernate, Spring Security, REST APIs, JDBC, Servlets, JSP
- **Database:** MySQL (DDL, DML, Joins, Subqueries, Query Optimization)
- **Tools & Platforms:** Git, GitHub, Postman, Maven, STS4, IntelliJ IDEA, Eclipse, VS Code
- **Concepts:** MVC Architecture, REST API Design, JWT Authentication & Authorization, Input Validation, Exception Handling, SOLID Principles, OOP, Agile/Scrum Basics
- **Cloud:** AWS (EC2, S3) — Fundamentals

Internship / Training

Java Full Stack Developer Trainee

2025

Pentagon space, Bengaluru

- Developed full-stack web applications using Java, Spring Boot, React.js, and MySQL following MVC architecture and REST API design principles.
- Built and tested 10+ RESTful APIs for CRUD operations; integrated MySQL using Spring Data JPA and Hibernate for robust data persistence.
- Implemented JWT-based Authentication and Authorization using Spring Security to secure endpoints and manage role-based access control.
- Applied input validation, global exception handling, and optimized SQL queries — improving reliability and reducing query execution time.
- Designed responsive React.js UI with React Hooks, Axios API integration, component-based architecture, and form validation.

Embedded Systems Intern

2025

Loginware Softtex Pvt. Ltd, Bengaluru

- Developed STM32-based embedded projects with sensors; gained experience in system design, debugging, and hardware-software interfacing.

Projects

Book My Stay

Spring Boot, React.js, MySQL, REST APIs, Maven

- Developed a full-stack accommodation booking web application with room browsing, user registration, and end-to-end booking management.
- Built 10+ RESTful APIs using Spring Boot for room listing, booking creation, and cancellation; integrated MySQL via Spring Data JPA for robust data persistence.
- Designed responsive React.js frontend with reusable components, React Hooks, form validation, and Axios-based API integration.
- Implemented MVC architecture with global exception handling and input validation for reliable backend performance.

E-Commerce Platform

Spring Boot, React.js, MySQL, Spring Security, JWT, Axios

- Built a full-stack e-commerce app with user registration, JWT authentication, product browsing, cart management, and order processing.
- Designed 15+ RESTful APIs using Spring Boot; integrated MySQL via Spring Data JPA with optimized queries for product and order management.
- Secured endpoints with Spring Security and JWT, enabling role-based access control for users and admins.
- Developed responsive React.js frontend with reusable components, React Hooks, form validation, and Axios-based API integration.

Smart Street Lighting System using ML

Raspberry Pi 4, TensorFlow Lite, OpenCV, Python

- Deployed real-time human detection on Raspberry Pi 4 using SSD MobileNet with TensorFlow Lite for edge inference.
- Automated streetlight control based on detection events, reducing energy consumption by an estimated 40%.
- Optimized inference pipeline for low-latency, low-power embedded deployment achieving reliable real-time performance.

Education

B.E. – Electronics & Communication Engineering

2021 – 2025

Adichunchanagiri Institute of Technology, Chikkamagaluru

CGPA: 7.54 / 10
