Summary

Full Stack Developer with 1+ year of experience specializing in **React.js, Next.js, and TypeScript**. Proven expertise in architecting scalable enterprise applications from scratch, optimizing frontend performance, and integrating REST APIs. Proficient in the **MERN stack** (MongoDB, Express.js, Node.js) with exposure to **Docker** and **Razorpay Fintech Integrations**.

Skills

- **Languages:** JavaScript (ES6+), TypeScript, C++, HTML5, CSS3
- **Frameworks/Libraries:** React.js, Next.js, Node.js, Express.js, Tailwind CSS, Zustand, Redux, REST APIs
- **Databases:** MongoDB (NoSQL), MySQL (SQL)
- **Tools & DevOps:** Git, GitHub, Docker (Basics), Postman, Swagger, Razorpay, **AI-Assisted Development**
- **Core CS:** Data Structures (DSA), OOPs, Operating Systems, Computer Networks

Work Experience

Revolve Solutions Pvt. Ltd.

05/2025 – Present

Junior Developer (On-site)

- **End-to-End Product Engineering:** Led the frontend architecture of an enterprise planning application from scratch, designing 50+ modular React components and managing complex financial states using **Zustand/Redux**.
- **High-Scale Performance:** Engineered virtualized rendering and custom pagination logic to handle 5,000+ dynamic rows, reducing interaction latency and improving responsiveness by 40%.
- **Systems Integration:** Collaborated with cross-functional teams to consume and optimize **RESTful APIs** via Swagger, maintaining 100% data integrity across budgeting and revenue modules.
- **Technical Implementation:** Developed form-heavy interfaces with multi-step validation and conditional business logic for financial analysis tools.
- **Workflow Optimization:** Leveraged AI-assisted development tools for rapid prototyping and logic refactoring, accelerating feature delivery by 30% while upholding code quality.

Ethnus

08/2023 – 11/2023

MERN-Stack Internship (Remote)

- Developed core patient-centric modules for the Prescripto healthcare platform using the **MERN stack**, achieving 100% responsiveness across diverse mobile and desktop browsers.
- Integrated Node.js backend services to handle secure appointment scheduling and real-time data updates.
- Identified and resolved 50+ critical technical bugs through rigorous debugging, improving overall application stability and user retention metrics.

Projects

Background Removal SaaS | *React, Node.js, AI Models, Razorpay* | [Live Link](#)

- Built an AI-driven image processing engine with **Razorpay API integration** for secure transaction handling and automated user profile updates.
- Optimized asset loading via CDN integration, resulting in a 30% improvement in initial page load times and user engagement.

Prescripto (Health-Tech System) | *MERN Stack, JWT, Bcrypt* | [Live Link](#)

- Developed a full-stack appointment system serving 2,000+ users with real-time slot allocation logic and **Razorpay payment** flows.
- Implemented secure authentication using **JWT and bcrypt**, protecting 1,000+ encrypted patient records.
- Designed an interactive doctor-patient dashboard, increasing administrative efficiency by 25%.

Education

Vellore Institute of Technology, Bhopal

B.Tech in Electronics & Communication Engineering

07/2021 – 04/2025

CGPA: 7.98/10.0

Certifications

- Appreciation Certificate for Open-Source Projects, Social Winter of Code (2024).
- Professional Certification in HTML, CSS, and JavaScript for Web Developers – Coursera (2023).
