SKILLS

Python, React.js, FastAPI, REST APIs, PostgreSQL, MongoDB, LangGraph, OpenAI APIs, LLM(basic), AI Integration, SQL, Microsoft Azure (AZ-900), Git, GitHub.

AREA OF INTEREST

- Web Technology
- Data Structure

CERTIFICATIONS

- Successfully earned **Microsoft Azure AZ-900 Certification**, demonstrating strong knowledge of cloud concepts, Azure services, security, and pricing.

ACHIEVEMENT

- Received the **Best Project Award** for outstanding performance and innovation in software development.
- Exhibited a research paper titled **"Future of Virtual Reality in Education"** at a National Level Symposium hosted by Hindustan Arts and Science College and won First Prize.

CO-CURRICULAR ACTIVITIES

- Demonstrated a paper titled **"Graphical Password Authentication"** at a **National Level Symposium** conducted by Vellalar Engineering College, showcasing knowledge of cybersecurity and authentication mechanisms.
- Participated in a **24-hour Hackathon** and developed **"LevelUp"**, an innovative project focused on problem-solving and rapid application development, hosted by **Kongu Engineering College**.

CAREER ASPIRATION

Aspiring to secure a Full Stack Developer role, bringing 1 year of internship experience in React.js, Python, FastAPI, PostgreSQL, OpenAI APIs, LangGraph to build scalable, AI-integrated web applications.

EDUCATION QUALIFICATION

Completed Master of Computer Applications (MCA) at Kongu Engineering College with a CGPA of **8.72**.

Graduated with a BSC in Software Systems from Kongu Engineering College, securing a CGPA of **8.13**

PROJECTS

AI-FIRST CRM SYSTEMS USING LANGGRAPH AND LLM

- Designed an AI-driven CRM system converting natural language into structured data using LangGraph, Groq LLM, FastAPI, and React.js, streamlining CRM workflow efficiency.

TASK MANAGEMENT SYSTEM

- Constructed a scalable task management app using **Python, FastAPI, React.js**, and **PostgreSQL with JWT authentication and REST APIs** for secure, role-based task management. Implemented task creation, assignment, status tracking and user management features to improve team collaboration and productivity.

VELMART DEPARTMENT STORE

- Developed a comprehensive e-commerce web application using the **MERN Stack**, enabling real-time product browsing, secure online shopping, customer registration, inventory tracking, and efficient order management.

INTERNSHIPS

Atdoor Company – Frontend Developer Intern (Jan 2025 – Sep 2025)

- Developed responsive and reusable user interface components using **React.js**.
- Integrated **REST APIs** to fetch and display dynamic data in the application.
- Collaborated with the development team to implement UI features, fix bugs, and improve the overall user experience.
- Optimized application performance by improving component reusability and enhancing the overall user interface.

Code4X – Full Stack Developer Intern (Dec 2025 – Feb 2026)

- Built an AI-powered web application using **React.js, FastAPI, and PostgreSQL**.
- Developed and integrated **REST APIs** for seamless communication between the frontend and backend.
- Integrated **OpenAI APIs** for AI-based content generation and gained hands-on experience in full-stack application development.
- Collaborated with the team using Git and GitHub for version control, code reviews, and efficient project management.
