PROFESSIONAL SUMMARY

Available for immediate joining.

Full Stack Developer with 2+ years of experience building scalable and responsive web applications using **React.js**, **Node.js**, **JavaScript (ES6+)**, and **MongoDB**. Strong expertise in **Redux**, **REST APIs**, and **JWT Authentication**, with a focus on performance optimization and clean, maintainable code. Proven ability to improve application efficiency (e.g., reducing load time by 30%) and deliver end-to-end solutions across frontend and backend. A collaborative team player with hands-on experience in **AWS deployment**, Git workflows, and modern development practices.

EXPERIENCE

Eduway Career Solution

Full Stack Developer

Pune

Jul 2023 - Oct 2024

- Led end-to-end development of responsive web applications, ensuring cross-device compatibility and seamless UI delivery, resulting in a **30% improvement in page load performance** and enhanced user experience across low-bandwidth environments.
- Designed and implemented scalable frontend-backend integration, including authentication and data flow management, reducing production issues by **25% through efficient state handling** and structured debugging practices.
- Built and optimized backend services, handled asynchronous operations, and supported deployments with proper version control practices, contributing to **faster release cycles by 20%** and improved application stability.

EDUCATION

Sinhgad Institute of Technology

Bachelor of Engineering (B.E.)

Major in Computer Science

Pune

Aug 2019 - Jul 2023

PROJECTS

Smart Travel Booking Platform with Real-Time Search & Secure Authentication

Feb 2023

- Developed a full-featured booking platform using React.js, Node.js, MongoDB, and Redux, implementing real-time search filters and JWT-based authentication, which **improved user engagement by 25%** and increased successful bookings.
- Optimized API handling and database queries within a JavaScript-based full stack system, **reducing page load time by 20%** and enhancing performance across mobile devices.

Scalable E-Commerce Platform with Optimized Search & Checkout Experience

Dec 2022

- Engineered a full-stack e-commerce application using React, Redux Toolkit, Node.js, and MongoDB, delivering dynamic product filtering, cart management, and secure checkout, which **improved user interaction by 30%** and increased conversion efficiency.
- Implemented debounced search, JWT-based route protection, and persistent cart functionality with localStorage integration, **reducing unnecessary API calls by 25%** and enhancing session continuity for repeat users.

Real-Time Task Management & Collaboration Platform

Aug 2022

- Built a scalable collaboration platform using React.js, Node.js, MongoDB, and Redux, enabling real-time task updates, role-based access, and JWT authentication, **improving team productivity by 35%** and reducing task tracking delays.
- Optimized API performance and state management with REST APIs and efficient async handling, **decreasing response time by 40%** and ensuring seamless real-time synchronization across users.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, PHP, C, C++, HTML5, CSS3

Frontend & Frameworks: React.js, Redux, Tailwind CSS, Bootstrap, Vite, Flutter (basic UI development)

Backend & APIs: Node.js, Express.js, Django, Flask, RESTful APIs, GraphQL (basics)

Databases & Caching: MongoDB, MySQL, Firebase, Redis (caching fundamentals), AWS S3 (basic storage)

DevOps & Cloud: AWS (EC2, CI/CD), Docker (basics), Microsoft Azure (fundamentals), Git, GitHub, GitHub Actions (CI/CD)

Tools & Technologies: Claude AI, Cursor, GitHub Copilot, Linux, Kafka (basics), Shell Scripting

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Additional: Machine Learning Basics, Cybersecurity Awareness, API Optimization & Performance Tuning

CERTIFICATIONS

- Full Stack Development (MERN Stack) – Udemy
- JavaScript & Modern ES6+ – Meta
- AWS Cloud Practitioner Essentials – Amazon Web Services
- GitHub Actions (CI/CD) – GitHub
- Linux Shell Scripting – Udemy
